Literature Review Matrix

Review question

What shapes first-year students' participation in hybrid tutorials?

Theme overview

Theme	Sources compared
Access	1
Forms of participation	2

Access

Source A · Interview study

Method and sample	Relevant finding
Six interviews with first-year students.	Unreliable internet interrupted some spoken contributions.

Limitation	Page, table or section
Small, self-selected sample.	p. 8

Forms of participation

Source B · Student survey

Method and sample	Relevant finding
Cross-sectional survey of 124 students.	Confidence was associated with self-reported participation.

Limitation	Page, table or section
Self-reported participation and no causal comparison.	Table 2

Source C · Tutorial observations

Method and sample	Relevant finding
Observation of four tutorials.	Some students who rarely spoke contributed through text chat.

Limitation	Page, table or section
One course and four sessions.	p. 11

Synthesis notes

Access affected opportunities to participate, while the channel used affected what participation looked like. Compare spoken, written and self-reported participation separately before drawing a conclusion.
